How to Play With These Memory Cards

Prepare the cards:

- **Choose the sets** of cards you'd like to print.
- **Print two copies of each page** to make pairs of matching cards.
- Print it onto **cardstock or poster board** paper so that it is durable and also so that you don't see the pictures from the back.
- **Optional:** laminate the pages to make the cards last even longer.
- **Cut out** the individual cards.

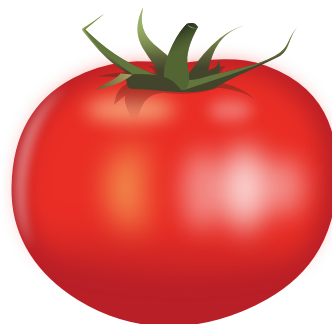

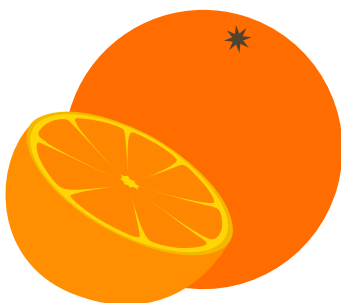

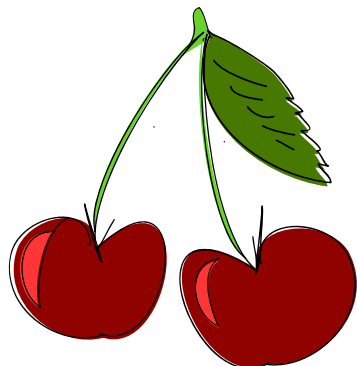

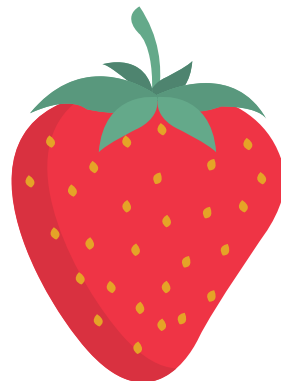

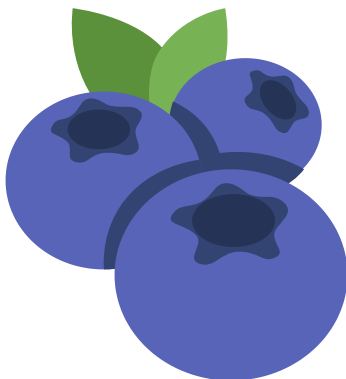

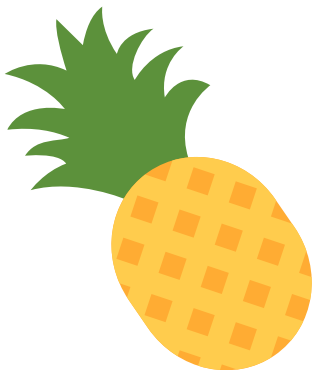

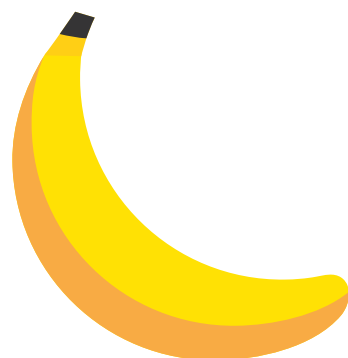

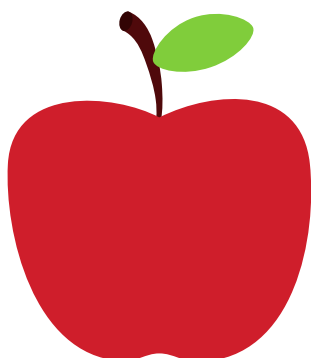

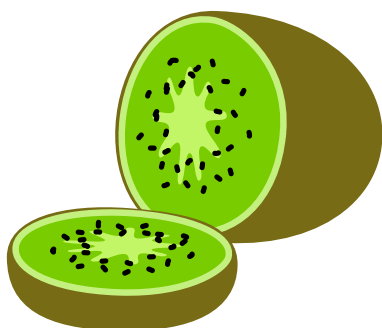

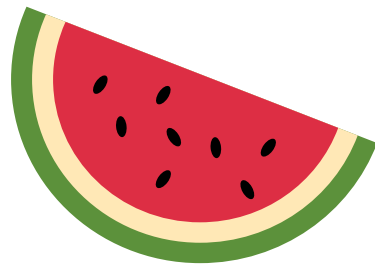

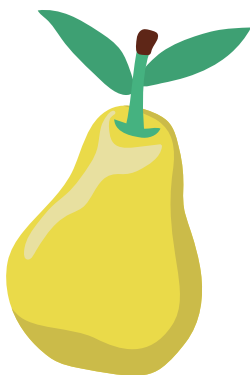

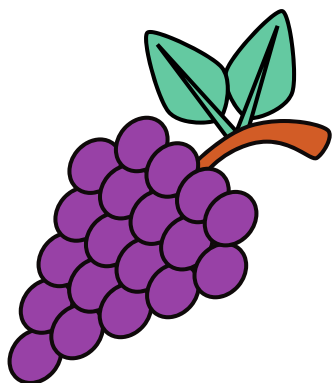

How to play the memory game:

- This game can be played with **2 or more** children.
- **Choose how many** pairs of matching cards you would like to play with - young preschoolers can start with 3 or 4 pairs, older children can go up to 24 pairs.
- Lay them all **face down** and shuffle them.
- Players take turns **turning over two cards at a time**.
- If they **match**, the player keeps the cards.
- If they **don't match**, the player must turn them over again.
- In the end, the player with the **most pairs of cards wins** the game.
- The object of the game is for players to **memorize the positions** of the various cards as they are turned over.
- **Playing with toddlers?** Lay all the cards face up and shuffled, and let toddlers find the matching pairs.

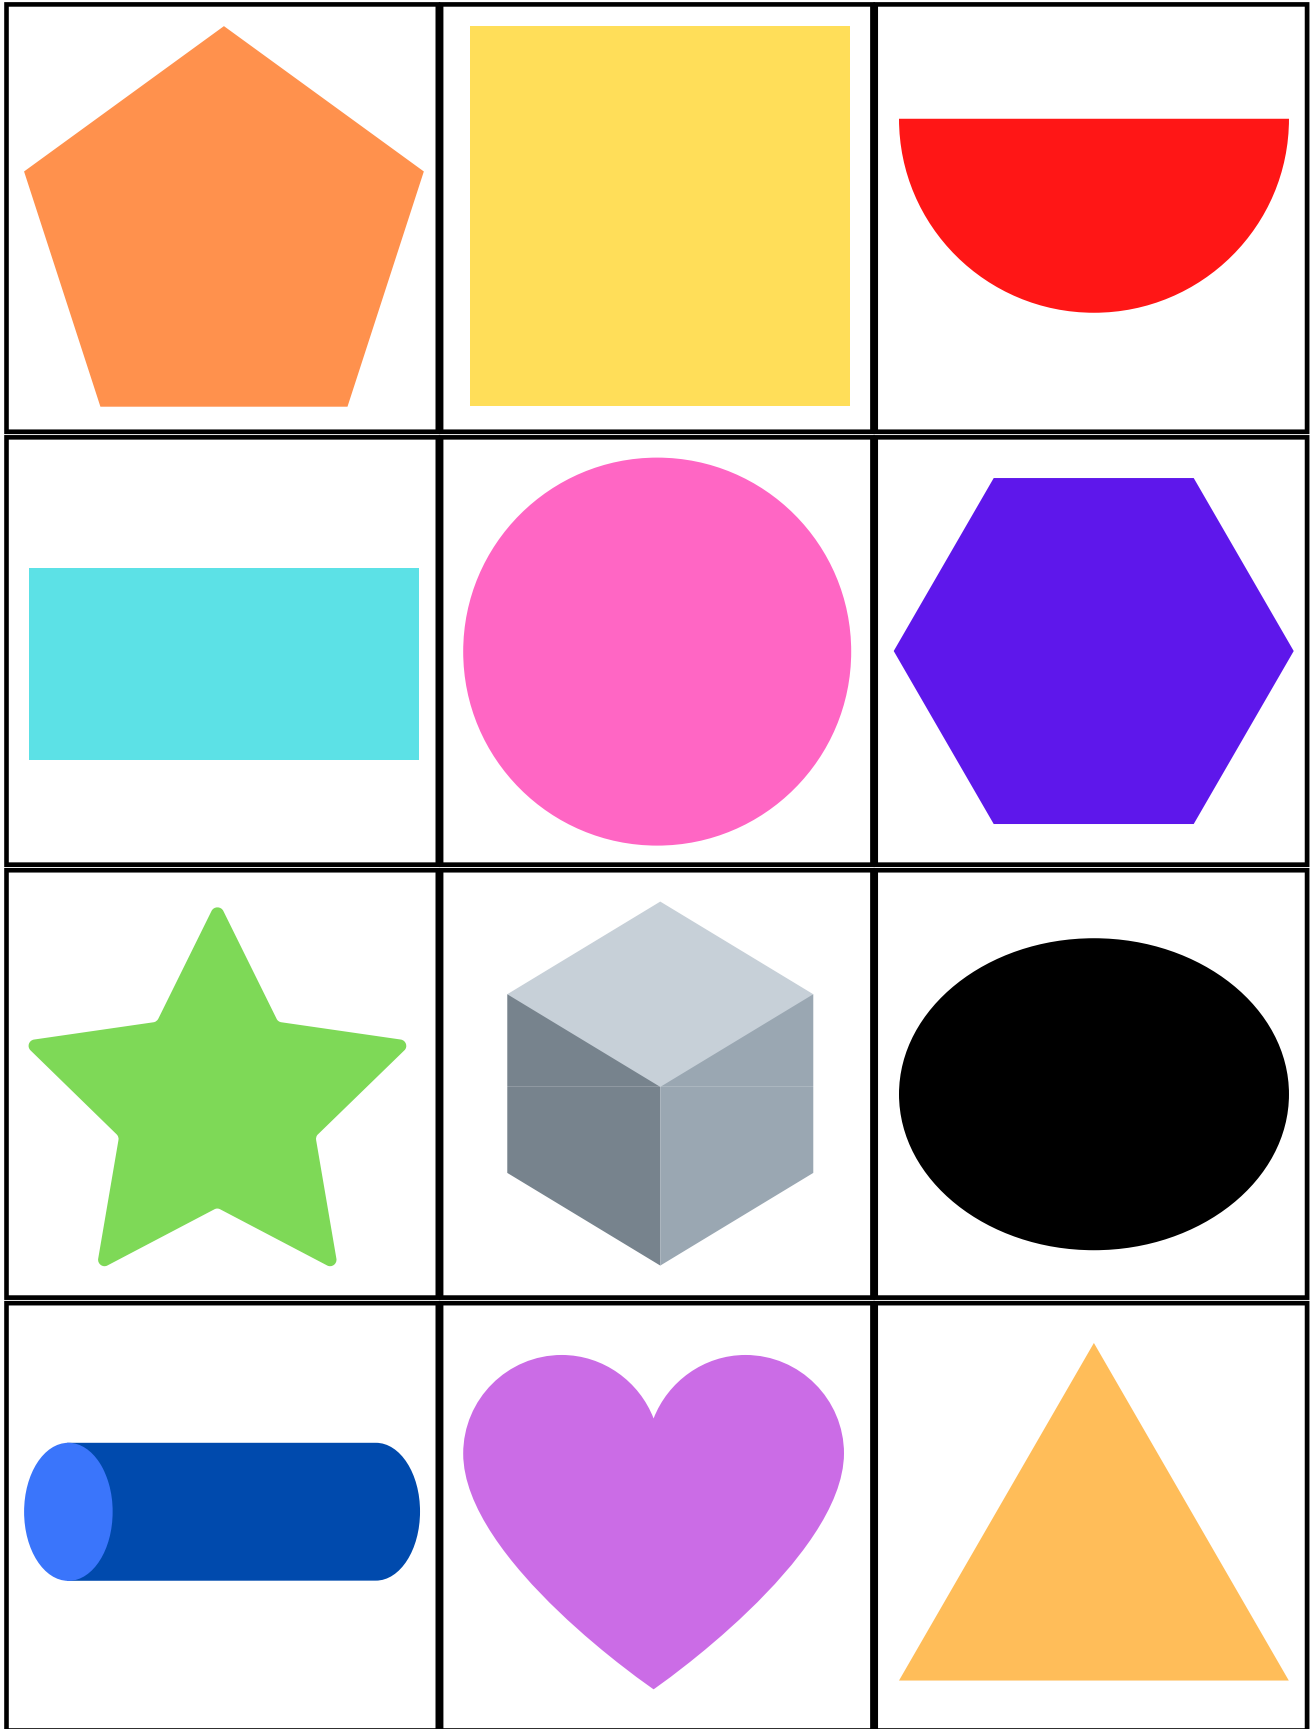

Areas of development:

- Visual memory
- Attention span
- Visual perception
- Turn-taking and cooperation
- Matching
- Vocabulary
- Shapes, colours and number concept
